Reg. No: S-12473/2016

Ref: hrss/2020/ka/21

Corona Virus (Covid-19) pandemic has been spread out all over the world. In Bangladesh, the number of deaths and infected people from corona virus pandemic is remarkably rising too. Several hundreds of people have already died of corona virus pandemic in Bangladesh. On the other hand, government is struggling to provide medical support to the infected people due to the limitation of health service. In recent time, the negligence of medical services in some cases is noticed sadly. People are wondering from one hospital to another hospital and some of them are died on the way to hospital without any medical support. Many corona virus infected people, Nurse, Doctors and health workers are being suppressed in society and many of them are compelled to leave their house. Death body funeral are prevented in some areas. Death body and patient are thrown away, even it is noticed that sons keep their mother away to the jungle. It is natural that, people will help and extend their hand to the infected people but we noticed the alternative scenery in society.

### Let's overcome the fear and Stand beside the vulnerable people

- Bringing corona virus suspected and infected people from home to hospital.
- We have already prepared a team of twenty volunteers to funeral death body.
- In this regard we need two ambulances (with Oxygen cylinder and primary medical equipment) and PPE of twenty volunteers.

### Your small assistance will make our endeavor possible

# Please send your financial assistance to--

1. Bkash: 01791227420 Md. Saiful Islam
2. Rocket: 015201047473 Md. Imamul Hossain

Sincerely yours
